Subject: NSTAR Problem - Error Code 954

Broadcast to All Staff from Systems Operations

<u>NFIN Error 954</u>

CSED is experiencing a problem in NFIN (NSTAR's financial system). When you PF3 out of a screen or PF23 to navigate to a different screen you may get an *error 954*. They are working on the problem. Instead of using PF3 to get out of a screen, key in the ID for the screen you want to access next.

We will let you know when CSED has fixed the problem.
